## Section 1

### Management District Plan Summary

The name of the property-based Community Benefit District is the SoMa West Community Benefit District (“District”). The District is being established pursuant to the California Constitution and the Property and Business Improvement District Law of 1994, as amended and augmented by Article 15 of the San Francisco Business and Tax Regulations Code.

Developed by the SoMa West Steering Committee, the SoMa West Community Benefit District Management District Plan describes how the proposed SoMa West Community Benefit District will improve and convey special benefits to assessed parcels located within the District area. The District will provide activities, including Clean, Safe, and Beautiful, Marketing and Advocacy, and Administration. Each of the programs is designed to meet the goals of the District; to improve the safety of each individual assessed parcel within the District, to increase building occupancy and lease rates, to encourage new business development, and attract ancillary businesses and services for assessed parcels within the District.

| Method of Financing                  | Levy of assessments upon real property that specially benefit from improvements and activities.  |                |         |                                    |           |                                      |           |
| Assessments                          | Annual assessments are based on program costs allocated among the parcels based on assessable footage. Two property assessment variables, parcel square footage and building square footage, will be used in the calculation. Estimated annual maximum assessment rates for the first year of the district follow: <table><tr><td>Parcel Square Foot Assessment Rate</td><td>\$0.19006</td></tr><tr><td>Building Square Foot Assessment Rate</td><td>\$0.13015</td></tr></table> |                |         | Parcel Square Foot Assessment Rate | \$0.19006 | Building Square Foot Assessment Rate | \$0.13015 |
| Parcel Square Foot Assessment Rate   | \$0.19006  |                |         |                                    |           |                                      |           |
| Building Square Foot Assessment Rate | \$0.13015  |                |         |                                    |           |                                      |           |
| CPI Increase                         | Annual assessment increases may apply due to changes to the consumer price index (CPI). Total assessment revenue may also increase based on development in the District. The determination of annual adjustments in assessment rates will be subject to the approval of the SoMa West Community Benefit District Owners’ Association.  |                |         |                                    |           |                                      |           |
| City Services                        | The City and County of San Francisco has established and documented the base level of pre-existing City services. The District will not replace any pre-existing general City services.  |                |         |                                    |           |                                      |           |
| Collection                           | District assessments appear as a separate line item on the San Francisco City and County property tax bills.   |                |         |                                    |           |                                      |           |
| District Governance                  | The City may contract with a non-profit Owners’ Association to provide the day-day operations and carry out the services as provided for in this Management District Plan.   |                |         |                                    |           |                                      |           |

|                           |   |
|---------------------------|---|
| <b>District Formation</b> | District formation requires submission of favorable petitions signed by property owners representing more than 30% of total assessments to be paid. Petitions are submitted to the San Francisco Board of Supervisors. If the 30% threshold is met, the City will conduct further hearings and mail ballots to all District property owners and the majority of ballots returned, as weighted by assessments to be paid, must be in favor of the District in order for the Board of Supervisors to consider approval. |
| <b>Duration</b>           | The District will have a 15-year life beginning January 1, 2020 and ending December 31, 2034.   |

### **District Improvement and Activity Plan**

#### **Process to Establish the Improvement and Activity Plan**

---

In the summer of 2017, the SoMa West Community Benefit District Steering Committee initiated a series of property owner meetings and a survey campaign to determine property owner interest in forming a Community Benefit District that would levy assessments to fund enhanced improvements and activities. The primary needs as determined by the parcel owners were: safety/security, cleaning, beautification, marketing, advocacy, and administration. All of the services provided, such as the security work provided by the Safe Team and the cleaning work provided by the Clean Team, are services that are over and above the City's baseline of services and are not provided by the City.

Due to their unique nature of focusing on the particular needs of each assessed parcel within the District, these special services provide particular and distinct benefits to each of the assessed parcels within the District. Each of the services provided by the District are designed to meet the needs of the retail, education, religious, parking, publicly-owned, office, residential, and live-work parcels that make up the District and provide special benefit to each of the assessed parcels. The services are provided only to the assessed parcels and are not provided to parcels outside the District.

The total improvement and activity plan budget for the District in 2020 is projected at \$3,965,915. Of the total budget, \$3,809,459.85 is attributable to providing special benefits and is therefore funded by property assessments. General benefit from the District budget is calculated to be \$156,455.15 and is not funded by assessment revenue from District parcels. The costs of providing each of the budget components was developed from actual experience obtained in providing these same services in other Community Benefit Districts. Actual service hours and frequency may vary in order to match varying District needs over the fifteen-year life of the District. A detailed operation deployment for 2020 is available from the property owner's association. The budget is made up of the following components:

#### **Clean, Safe and Beautiful**

---

##### **Safe Team Program**

The Safety Program will provide security services for the individual parcels located within the District in the form of patrolling bicycle personnel, walking patrols and/or vehicle patrols. Additionally, a security camera program will be explored. The purpose of the Safe Team Program is to prevent, deter and report illegal activities taking place on the streets, sidewalks, storefronts, parking lots and public alleys. The presence of the Safe Team Program is intended to deter such illegal activities as vandalism, graffiti, narcotic use or sales, public urination, trespassing, drinking in public, prostitution, illegal panhandling, unpermitted vending, and illegal dumping. The Program will supplement, not replace, other ongoing police, security and patrol efforts within the District. The Safe Team Program will only provide its services within the District boundaries. The special benefit to parcels from these services is increased commercial activity which directly relates to increased building occupancy and customer usage. A District that is perceived as unsafe deters pedestrian and commercial activity.

### **Clean and Beautiful Program**

In order to consistently deal with cleaning issues, a Clean and Beautiful Program will provide a multi-dimensional approach consisting of the following elements. The clean team will only provide service to properties within District boundaries. The special benefit to parcels from these services is increased commercial activity which directly relates to increases in lease rates and customer usage. Services may include, but are not limited to, the following:

- **Sidewalk Cleaning:** Uniformed, radio equipped personnel sweep litter, debris and refuse from sidewalks and gutters of the District. District personnel may pressure wash the sidewalks. Paper signs and handbills that are taped or glued on property, utility boxes, poles and telephones are removed. Clean sidewalks support an increase in commerce and provides a special benefit to each individually assessed parcel in the district.
- **Sidewalk Pressure Washing:** District personnel may pressure wash the sidewalks. Clean sidewalks support an increase in commerce and provides a special benefit to each individually assessed parcel in the district.
- **Trash Collection:** Collector truck personnel collect trash from sidewalk trash receptacles as needed. They are also dispatched to collect stolen shopping carts and large bulky items illegally dumped in the District.
- **Graffiti Removal:** Painters remove graffiti by painting, using solvent and pressure washing. The District maintains a zero-tolerance graffiti policy. An effort is made to remove all tags within 24 hours on weekdays.
- **Landscape Maintenance:** Weeding of District tree wells and sidewalk cracks.
- **Public Space Activation:** A program to activate public spaces in the District may be developed.
- **Art in Public Places Program:** A program of temporary and permanent art, including performing art, may be developed.

The Clean Team will only operate within District boundaries. The special benefit to assessed parcels from these services is increased commercial activity, which directly relates to increased building occupancy and customer usage. Dirty and unclean sidewalks deter pedestrians and commercial activity.

### **Marketing and Advocacy**

In order to communicate the changes that are taking place in the SoMa West Community Benefit District and to enhance the positive perception of SoMa West parcels, a professionally developed marketing and communication program will be created. This is a special benefit because it works to improve the positive perception of the District. Decisions on where to shop, eat, work, and live are largely based on a perception of the place. The special benefit to District assessed parcels from these services is increased commercial activity which directly relates to increases in lease rates and enhanced commerce.

*The programs below are being considered, but are not limited to, the following:*

- Destination Marketing
- Branding
- Events
- Media Relations
- Advocacy
- Community Grants
- Website
- District Stakeholder Communications

## **Administration**

---

The improvements and activities are managed by a professional staff that requires centralized administrative support. Administration staff oversees the District's services which are delivered seven days a week. Administration staff actively works on behalf of the District parcels to ensure that City and County services and policies support the District. Included in this item are office expenses, professional services, organizational expenses such as insurance, the cost to conduct a yearly financial review. District funds from Administration may be used for renewing the District and/or repaying costs of establishing the District.

A well-managed District provides necessary Community Benefit District program oversight and guidance that produces higher quality and more efficient programs. Administration staff implement the programs and services of the District. The special benefit to assessed parcels from these services is increased commercial activity, which directly relates to increased building occupancy and enhanced commerce.

## **Contingency/Reserve/City Fees**

---

An operating reserve is budgeted as a contingency for any payment of delinquencies, uncollectible assessments, Community Benefit District renewal efforts, and/or unforeseen budget adjustments. District funds from Contingency/Reserve/City Fees may be used for establishing and/or renewing the District.

## Section 4

### SoMa West CBD Assessment Budget

#### Fifteen-Year Operating Budget

A projected fifteen-year operating budget for the SoMa West Community Benefit District is provided below. The projections are based upon the following assumptions:

Annual assessment increases may increase due to changes to the consumer price index (CPI). Assessments may also increase based on development in the District. The determination of annual adjustments in assessment rates will be subject to the approval of the SoMa West Community Benefit District Owners' Association. The projections below illustrate a 3% CPI annual increase as an example for all budget items for the purpose of this Management District Plan. Assessment rates may increase more than 3% if the CPI annual increase is more than 3%.

The cost of providing programs and services also may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. The Owners' Association shall have the right to reallocate up to 10% by line item of the budget allocation within the budgeted categories. Any change will be subject to approval by the Owners' Association board of directors and submitted to the City and County of San Francisco within the CBD's annual planning report, pursuant to Section 36650 of the California Streets and Highways Code. The overall budget shall remain consistent with this Management District Plan. Each assessed parcel's assessment is no greater than its proportionate share of the special benefits received.

### **Future Development**

The above table is based on the district's current development status and does not account for possible increases to assessments due to changes to the parcel characteristics that are used to allocate special benefits (e.g., building square footage). The amount of each parcel's assessment will depend on the existing assessment rates as well as the specific characteristics of the parcel, as explained in further detail below in Section 5. Each parcel will be assessed on a prorated basis from the date it receives a temporary and/or permanent certificate of occupancy. Thus, changes to a parcel may result in corresponding revisions to the assessments. Over time the total assessments levied in the district likely will increase as parcels are developed.

## Section 5

### Assessment Methodology

#### General

---

This Management District Plan provides for the levy of assessments to fund services and activities that specially benefit real property in the SoMa West CBD. These assessments are not taxes for the general benefit of the City, but are assessments on the parcels in the District that are receiving special benefits.

#### Assessment Factors

---

Each parcel's special benefit is calculated by examining two factors: parcel square footage and building square footage. Parcel square footage is relevant to the highest and best use of a property and will reflect street-level services and the long term value implications of the services provided. Building square footage is relevant to the current use of a property and is utilized to measure additional demand for services that is not captured by lot size, and to reflect short and medium term special benefits. The district will provide services in a manner that results in special benefits to parcels both over the long term and over the short/medium term. Thus, fifty percent (50%) of the District budget is allocated to parcel square footage and fifty percent (50%) to building square footage.

**Parcel square footage** is defined as the total amount of area within the borders of the parcel. The borders of a parcel are defined on the San Francisco City and County Assessor parcel maps.

**Building square footage** is defined as the total building square footage as determined by the outside measurements of a building.

## Special Benefit Analysis

---

All special benefits derived from the assessments outlined in this report are for property-related activities that are specifically intended for and directly benefitting each individual assessed parcel in the SoMa West CBD. The special benefit must affect the individual assessable parcel in a way that is particular and distinct from its effect on other parcels and that real property in general and the public at large do not share. No parcel's assessment shall be greater than the special benefits received.

Streets and Highways Code Section 36601(e) states that "Property and business improvement districts formed throughout this state have conferred special benefits upon properties and businesses within their districts and have made those properties and businesses more useful by providing the following benefits: (1) Crime reduction. A study by the Rand Corporation has confirmed a 12-percent reduction in the incidence of robbery and an 8-percent reduction in the total incidence of violent crimes within the 30 districts studied. (2) Job creation. (3) Business attraction. (4) Business retention. (5) Economic growth. (6) New investments."

The SoMa West CBD's goal is to fund activities and improvements to provide a cleaner, safer and more attractive and economically vibrant environment as outlined in Section B. The goal of improving the economic vitality is to improve the safety, cleanliness, appearance, and economic development of each individual specially benefitted parcel in an effort to increase commerce, to increase building occupancy and lease rates and to attract more customers, employees, tenants and investors.

Each parcel will specially benefit from:

- Cleaner sidewalks, streets and common areas
- Real and perceived public safety improvements
- Greater pedestrian traffic
- Enhanced rental incomes
- Improved business climate
- New business and investment
- Well-managed CBD programs and services

Specifically, each parcel specially benefits from the SoMa West CBD activities as defined below.

### ***Clean, Safe, and Beautiful***

The enhanced safety activities make the area safer which attracts more businesses, customers, and residents, and ultimately private investment. When business location decisions are made, "lower levels of public safety lead to increased uncertainty in decision making and can be perceived as a signal of a socio-institutional environment unfavorable for investment." Uncertainty affects the investment environment in general. But in particular, it increases the fear of physical damage to investment assets (or to people) or their returns...Almost universally, places with lower crime rates are perceived as more desirable."<sup>1</sup> Once economic investment occurs within the district, pedestrian traffic and commercial

activity will increase. The special benefit to assessed parcels from these services is the likelihood of increased lease rates and tenant occupancy due to the increase of commercial activity and an increase in customers that follow from having a safer environment.

The cleaning activities specially benefit each assessed parcel within the SoMa West CBD by providing a clean and aesthetically appealing environment. This is achieved through sidewalk sweeping and power washing, removing litter and graffiti, and trash removal. These activities create the environment needed to achieve the CBD's goals. Sidewalks that are dirty and unclean, particularly from homeless activities, deter pedestrians and commercial activity.

In addition, the beautification activities specially benefit each assessed parcel by providing maintained landscaped corridors and art in public places. These activities create the environment needed to achieve the CBD's goals.

### ***Marketing and Advocacy***

These activities are tied to and will specially benefit each individual parcel by encouraging business development and investment that generates customer traffic, which directly relates to increases in commercial activity, filling of vacant storefronts and offices and ultimately, increased lease rates for retail and office space. This is a special benefit to the District because it works to improve the positive perception of the District. Decisions on where to shop, eat or attend events are largely based on a perception of the place. If these activities were not communicated it would be a deterrent to pedestrian traffic, business and commerce.

### ***Administration***

The SoMa West CBD requires a professional staff to properly manage programs, communicate with stakeholders and provide leadership. Each parcel will specially benefit from the SoMa West CBD Administration staff that will ensure that the SoMa West CBD services are provided and deployed as specifically laid out in this Engineer's Report and will provide leadership to represent the community with one clear voice.

### ***Contingency/Reserve/City Fees***

The SoMa West CBD services and activities include a contingency, reserve fund, and city fee collection fund that will allow the administration staff to allocate assessment revenues to activities that may have cost overruns or to cover unforeseen expenses. These are necessary to carry out the CBD activities that specially benefit each assessed parcel.

### ***Special Benefit Conclusion***

Based on the special benefits each assessed parcel receives from the SoMa West CBD activities, we conclude that each of the proposed activities provides special benefits to the real property within the district and that each parcel's assessment is in direct relationship to and no greater than the special benefits received.

The special benefit to parcels from the proposed SoMa West CBD activities and improvements described in this report are equal to the total amount of the proposed assessment. Each individual assessed parcel's assessment does not exceed the reasonable cost of the proportionate special benefit it receives from the SoMa West CBD activities.

## **General Benefit Analysis**

---

As required by the State Constitution Article XIID Section 4(a), the general benefits of an assessment district must be quantified and separated out so that the cost of the activities that are attributed to general benefit are deducted from the cost assessed against each specially benefitted parcel. General benefits are benefits from the SoMa West CBD activities and improvements that are not special in nature, are not “particular and distinct” and are not over and above the benefits that other parcels receive. This analysis will evaluate and determine the level of general benefits that (1) parcels inside of the SoMa West CBD, (2) parcels outside of the SoMa West CBD, and (3) the public at large may receive.

### ***General Benefit to Parcels Inside the SoMa West CBD***

The SoMa West CBD provides funds for activities and improvements that are designed and created to provide special benefits to each individually assessed parcel within the District. Each individual assessed parcel will specially benefit from the cleaner and safer public rights-of-way and increased economic activity, thus 100% of the benefits conferred on these parcels are distinct and special in nature and that 0% of the SoMa West CBD activities provide a general benefit to parcels in the District boundary.

### ***General Benefit to Parcels Outside of the SoMa West CBD***

All the SoMa West CBD activities and improvements are provided solely to each of the individual assessed parcels in the SoMa West CBD boundary. Each of the CBD activities is provided to the public right-of-ways (streets, sidewalks) adjacent to all specially benefitted parcels or tenants in the SoMa West CBD. None of the surrounding parcels will directly receive any of the SoMa West CBD activities. Any benefits these parcels may receive are incidental to providing special benefits to the assessed parcels, and thus any cost associated to the incidental benefits are not reduced from the cost of providing special benefit.

### ***General Benefit to the Public At Large***

In addition to general benefit analysis to the parcels outside of the SoMa West CBD boundary, there may be general benefits to the public at large, i.e., those people that are either in the SoMa West CBD boundary and not specially benefitted from the activities, or people outside of the SoMa West CBD boundary that may benefit from the SoMa West CBD activities. In the case of the SoMa West CBD, the public at large are those people that are within the SoMa West CBD boundary that do not pay an assessment and do not specially benefit from the SoMa West CBD activities.

To calculate the general benefit the public at large may receive we determine the percentage of each SoMa West CBD activity budget that may benefit the general public. In this case, the Marketing and Advocacy activities are tailored to benefit and promote each assessed parcel and are not intended to benefit the general public. Administration and Contingency/Reserve activities are to provide daily management of the SoMa West CBD solely for the benefit of the assessed parcels, and are not intended to benefit the general public. If there are any public benefits, they are incidental and collateral to providing special benefits to the assessed parcels.

By contrast, the Clean, Safe and Beautiful activities may benefit the general public to some degree, as the general public may appreciate the enhanced level of maintenance and security as it passes through the SoMa West CBD. To quantify this, we first determine a general benefit factor for the Clean, Safe

and Beautiful activities. The general benefit factor is a unit of measure that compares the special benefit that the assessed parcels receive compared to the general benefit that the general public receives. To determine the general benefit factor, we used previous districts that conducted intercept surveys in San Francisco (Union Square and West Portal) and Los Angeles (Historic Downtown, Leimert Park, Arts District, Downtown Industrial, Fashion District, and Sherman Oaks). The intent of the surveys was to determine what percentage of the general public was just passing through the district without any intent to engage in commercial activity. The surveys concluded that on average 1.4% of the respondents were within the district boundary with no intent to engage in any business activity. Here, since the SoMa West CBD is designed to promote a business and residential climate that encourages development, investment, and commerce, it follows that the benefits received by these pedestrians do not translate to a special benefit to the assessed parcels. In other words, based on the results of these surveys it is reasonable to conclude that 1.4% of Clean, Safe and Beautiful activities provide general benefits. However, to be conservative and to account for any variance in district type, size and services provided, we applied a 5% general public benefit factor to account for these variances. The general benefit factor is then multiplied by the District activity's budget to determine the overall general benefit for the Clean, Safe and Beautiful activities. The following table illustrates this calculation.

|                           | A             | B                       | C                                  |
|---------------------------|---------------|-------------------------|------------------------------------|
| ACTIVITY                  | Budget Amount | Relative Benefit Factor | General Benefit Allocation (A x B) |
| Clean, Safe and Beautiful | \$3,129,103   | 5.00%                   | \$156,455                          |

This analysis indicates that \$156,455 of the Clean, Safe and Beautiful activities may be attributed to general benefit to the public at large, and must be raised from sources other than special assessments.

### ***Total General Benefits***

Using the sum of the three measures of general benefit described above, we find in year one that \$156,455 (5.0% of the Clean, Safe and Beautiful budget, which is equal to 3.94% of the total SoMa West CBD budget) may be general in nature and will be funded from sources other than special assessments.

### **Calculation of Assessments**

The proportionate special benefit derived by each identified parcel shall be determined in relationship to the special benefits provided by the services across the entire District. The proposed services are narrowly defined to confer a particular and distinct benefit to the parcels within the District. To pay for these special benefits, these parcels will be assessed at a rate that covers each parcel's proportionate share of the special benefits received. Only special benefits are assessable and these benefits must be separated from any general benefits. The Engineer's Report has calculated that 3.94% of the benefits provided by the District are general in nature, and cannot be paid for with assessments. Assessments will cover the remaining 96.06% of the CBD budget. (See page 13 of the Engineer's Report for discussion of general and special benefits.)

### **Assessable Footage**

|                         |            |
|-------------------------|------------|
| Parcel Square Footage   | 10,021,484 |
| Building Square Footage | 14,634,456 |

### **Benefit Zones**

Article XIIID of the California Constitution requires that special assessments be levied according to the special benefit each individual parcel receives from the improvements. In order to match assessments to special benefits, the levels of appropriate service delivery were determined by analyzing the current conditions of the district and quantifying the amount of clean and safe services that are needed to be delivered to parcels, and projecting future needs over the term of the District, in order to produce a common level of safety and cleanliness for each parcel throughout the District. It was determined that all parcels within the District will be assessed using the same assessment method and rate structure.

### **Assessments**

Based on the special benefit factors and assessment methodology discussed in the Engineer's Report on page 18, parcel square footage, building square footage and the proposed budget, the following illustrates the first year's maximum annual assessment:

|                                      |           |
|--------------------------------------|-----------|
| Parcel Square Foot Assessment Rate   | \$0.19006 |
| Building Square Foot Assessment Rate | \$0.13015 |

### **Assessment Rate Calculation**

The assessment rate is determined by the following calculation:

Total Assessment Budget = \$3,809,459.85

Assessment budget allocated to parcel square footage @ 50% = \$1,904,729.93

Assessment budget allocated to building square footage @ 50% = \$1,904,729.93

Parcel Square Footage Assessment Rate-

Assessment budget \$1,904,729.93 / 10,021,484 parcel sq ft = \$0.19006

Building Square Footage Assessment Rate-

Assessment budget \$1,904,729.93 / 14,634,456 building sq ft = \$0.13015

### **Sample Parcel Assessment**

To calculate the assessment for a parcel with 5,000 square feet of parcel footage and 5,000 square feet of building, multiply the parcel square footage (5,000) by the assessment rate (\$0.19006) = \$950.30 + multiply the building square footage (5,000) by the assessment rate (\$0.13015) = \$650.75 = Initial annual parcel assessment \$1,601.05.

### **Maximum Annual Assessment Adjustments**

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. Assessments may be subject to annual increases not to exceed the Consumer Price Index (CPI) for any given year. Assessments may also increase based on development in the District. The determination of annual adjustments in assessment rates will be subject to the approval of the SoMa West Community Benefit District Owners' Association. Any change will be approved by the Owners' Association Board of Directors and submitted to the City within its annual planning report, pursuant to Section 36650 of the California Streets and Highways Code.

As an example, the projections below illustrate a maximum 3% CPI annual increase for all assessment rates. Assessment rates may increase more than 3% if the CPI increases above 3%.

### **Budget Adjustments**

Any annual budget surplus will be rolled into the following year's District budget. The budget will be set accordingly, within the constraints of the Management District Plan to adjust for surpluses that are carried forward. District funds may be used for renewal of the District. Funds from an expired District shall be rolled over into the new District if one is established, or returned to the property owners if one is not established, in accordance with Streets and Highways Code section 36671. District rollover funds may be spent on renewal.

If an error is discovered on a parcel's assessed square footages or building square footages, the District may investigate and correct the assessed footages after confirming the correction with the San Francisco City and County Assessor Data. The correction will be made in accordance with the assessment methodology and may result in an increase or decrease to the parcel's assessment.

### **Future Development**

The above table is based on the District's current development status and does not account for possible increases to assessments due to changes in parcel characteristics that are used to allocate special benefits (e.g., building square footage). The amount of each parcel's assessment will depend on the existing assessment rates as well as the specific characteristics of the parcel, as explained in further detail above in Section 4. Each parcel will be assessed on a prorated basis from the date it receives a temporary and/or permanent certificate of occupancy. Thus, changes to a parcel may result in corresponding revisions to the assessments. Over time the total assessments levied in the district likely will increase as parcels are developed.

Parcels that experience a change in building square footage need to notify the District of changes.

### **Assessment Roll Corrections**

A property owner who believes that the assessment roll contains an error (for example, if it overstates the amount of assessable square footage) may submit a written request for review to the Owners' Association prior to April 1 of each year. Corrections shall be limited to the current assessment year and will not be considered for prior years.

### **Time and Manner for Collecting Assessments**

As provided by State Law, the District assessment will appear as a separate line item on the annual San Francisco County property tax bills, or by a special manual bill prepared by the District and either paid in one lump sum or in two equal installments. Laws for enforcement and collection of property taxes also apply to the SoMa West CBD assessment.

### **Disestablishment**

Each year that the SoMa West Community Benefit District is in existence, there will be a 30-day period during which property owners will have the opportunity to request disestablishment of the CBD. This 30-day period begins each year on the anniversary of the date the CBD was established. Within that 30-day period, if a written petition is submitted by the owners of real property who pay 50% or more of the assessments levied, the Board of Supervisors shall convene a hearing on whether to disestablish the district by:

A majority of the Board of Supervisors (six members) may initiate disestablishment at any time based on misappropriation of funds, malfeasance, or violation of law in connection with management of the district.

A supermajority (eight members) of the Board of Supervisors may initiate disestablishment proceedings for any reason. All outstanding bonds, financing leases, or similar obligations of the City payable from or secured by the CBD assessment must be paid prior to disestablishment of the CBD.

### **Bond Issuance**

The District will not issue Bonds.

### **Public Property Assessments**

Proposition 218 provides that no parcel can be assessed for more than its fair share of special benefits, including public property. All publicly-owned parcels, including parcels owned by the State of California and City and County of San Francisco, will pay their proportional share of costs based on the special benefits conferred to those individual parcels. These parcels specially benefit from District programs that provide an enhanced sense of safety and cleanliness which makes employees and visitors feel safe and increased use which translates into fulfilling their public service mission. Publicly-owned parcels also benefit from District programs which increase exposure and awareness of District amenities which in turn work to provide greater pedestrian traffic and increased use. The publicly-owned parcels and their assessments within the District boundary are listed below.

## **Section 6 Governance**

The City and County of San Francisco may contract with a non-profit organization to provide the day-to-day operations of the SoMa West Community Benefit District. The non-profit organization will act as the Owners' Association and governing board for the SoMa West Community Benefit District. The role of the Owners' Association is consistent with similar Community Benefit Districts and management organizations throughout California. The Owners' Association determines budgets, assessment adjustments and monitors service delivery.

The SoMa West Community Benefit District Owners' Association Board of Directors will represent a cross section of property owners found throughout the district. The goal and spirit of the board's composition is to have a majority of property owners, but also include representatives from businesses, and governments that pay Community Benefit District assessments. At least 50% of the Board members will be property owners that pay an assessment and, per City requirements, at least 20% of the members be non-property-owning business owners within the District boundary. A nominating committee develops an annual slate of board nominations, and nominations are voted on at an annual meeting of SoMa West Community Benefit District property owners.

## **Section 7 Implementation Timetable**

The SoMa West Community Benefit District is expected to be established and begin implementation of the Management District Plan on January 1, 2020. The SoMa West Community Benefit District will have a fifteen-year life through December 31, 2034.

In order for the SoMa West Community Benefit District to meet the service begin date of January 1, 2020, the formation need to adhere to the following schedule:

| <b>Formation Schedule</b>                                       | <b>Dates</b>            |

| Campaign to obtain signed petitions                             | February – October 2018 |
| Board of Supervisors adopts Resolution                          | October 2018            |
| Assessment ballots mailed to property owners                    | October - November 2018 |
| Board of Supervisors holds public hearing and tabulates ballots | December 2018           |
